Executive Summary

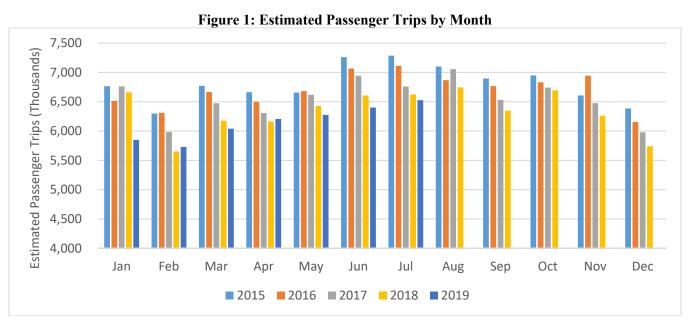

Estimated passenger trips decreased 1.5 percent in July 2019 compared to July 2018. July 2019 had one additional weekday, the same number of Saturdays, and one less Sunday/holiday compared to July 2018.

Estimated passenger trips decreased 2.3 percent in the last three months compared to 2018. Estimated passenger trips have decreased 3.0 percent in the last 12 months compared to the previous 12 months.

For the 2019 budget year, Metra estimated total annual passenger trips to be 75.6 million. To track how well ridership is comparing to this budgeted amount, monthly estimates have been calculated by distributing the budgeted trips throughout the year based on the distribution in previous years. Unanticipated differences in holiday and special event travel are common explanations for variations between the monthly budget distribution and actual ridership. These effects are less pronounced at the quarterly and annual level. Table 2 shows the estimated monthly passenger trips compared to this distribution.

Ridership

Estimated ridership figures are based on the number of ticket sales multiplied by a standard ridership factor unique to each ticket type, in addition to the number of RTA Ride Free Permit passenger trips reported by conductors.

Estimated Passenger Trips by Line

Table 3 shows estimated passenger trips by line for the current month, the last three months, and the last 12 months. Estimated passenger trips decreased by 2.3 percent in the last three months compared to the previous year and decreased 3.0 percent in the last 12 months compared to the previous year.

Estimated Passenger Trips by Fare Zone Pair

Table 4 shows estimated passenger trips by fare zone pair for the current month, the last three months, and the last 12 months.

- The long-term decline in No Zone Pair passenger trips is expected to continue as data collection improvements and the shift to the Ventra App cause fewer trips to be reported without a zone pair.
- In July 2018, year-long testing of the zone consolidation policy began. All tickets for Zones K through M were capped to the price of Zone J tickets. This caused an increase in passenger trips for Zone A-J, and a decrease for passenger trips for Zones A-K and A-M. There are no stations in Zone L.

Estimated Passenger Trips by Ticket Type

Table 5 shows estimated passenger trips by ticket type for the current month, the last three months, and the last 12 months. Special event tickets and other data irregularities can affect month-to-month comparisons of passenger trips by ticket type:

• Stockpiling of 10-Ride Tickets occurred in advance of the 2017 and 2018 fare increases. As a result, 10-Ride Ticket passenger revenue and ticket sales were overstated in January 2018 and understated in subsequent months. As there was no fare increase in 2019, February 10-Ride Ticket sales were not reduced by stockpiling in January 2019 as they have been in previous years.

Passenger Loads

Table 6 shows the average daily passenger loads by service period for the current month, the last three months, and the last 12 months, derived from conductor counts. Average peak-peak direction passenger loads decreased 1.2 percent in the current month, and average total weekday passenger loads decreased by 2.4 percent in the same period.

RTA Ride Free Permit Free Trips

Figure 2 shows the number of RTA Ride Free Permit passenger trips for the last five years. Trips are included in ridership estimates because Metra is eligible for reimbursement for the number provided.

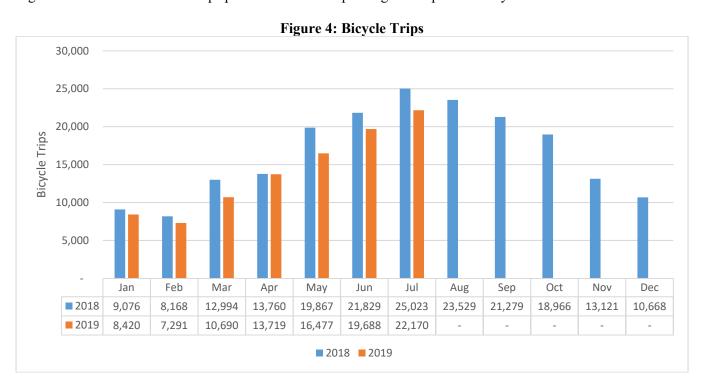

Accessible Trips

Figure 3 shows the number of trips provided using accessible equipment. Accessible equipment consists of bridge plates on the Metra Electric Line and wheelchair lifts on all other lines.

Bicycle Trips

Figure 4 shows the number of trips provided where the passenger transported a bicycle.

Ridership Influences

Many different factors (such as the employment, gas prices, road construction, service changes, and special events) can influence ridership trends.

Employment

Figure 5 shows the number of persons employed in the six-county Chicago Region. The number of persons employed increased 0.5 percent in July 2019 compared to July 2018.

Road Construction

No new roadway construction projects of regional significance began in July. The following projects are either under construction or were recently completed:

• Jane Byrne Interchange Reconfiguration – In 2015, work began on a major reconfiguration of the Jane Byrne Interchange. Work is expected to continue through 2022.

Service Changes

On June 1, weekend service on the BNSF, RI, and UP-NW lines was increased as part of a pilot project to increase weekend ridership.

A two-year reverse-commute pilot project began March 4 on the Milwaukee District-North. The Milwaukee District-North schedule was adjusted to add two outbound morning express trains between Union Station and Lake Forest, and one inbound evening train.

Special Events and Promotions

Family Fares are in effect from Memorial Day to Labor Day.

Metra added additional service on the BNSF and UP-W lines for the Taste of Chicago (July 10-14).

Passenger Revenue and Ticket Sales

Changes in fares, ticket policies, and ticket sales channels can affect passenger revenue and ticket sales trends:

- In June 2018, Metra stopped selling Monthly Passes and 10-Ride Tickets from vending machines at 15 non-downtown stations on the Metra Electric Line.
- In June 2018, Metra ended its Ticket-by-Internet program.
- In July 2018, yearlong testing of the zone consolidation policy began. All tickets from Zone A to Zones K through M were capped at the price of Zone J tickets.
- In July 2018, select stations with perceived inconsistencies in distance from downtown were reassigned to closer zones. Ashland, Racine, West Pullman, Stewart Ridge and State Street stations moved from Zone D to C. On the Metra Electric mainline, the 83rd Street and 87th Street stations were moved from Zone C to B. On the Rock Island Beverly Branch, the 123rd Street Station was moved from Zone D to C.
- In December 2018, an update to the Ventra app ended the option for purchasing mobile tickets without creating a Ventra account.
- Customers on the Metra Electric Line received a 15 percent discount on their April 2019 Monthly Pass. The discount was offered as compensation for two weeks of service disruptions in January and February, including all or part of six days without any service, caused by unusually severe weather conditions and damage from the derailment of a CN train.
- On the weekend of February 16-17, 2019 Metra offered free rides on all trains. Ridership from the weekend of February 16-17 is not included in the quantity of Weekend Passes sold in February 2019 as passengers were not required to purchase a ticket.
- On June 1, 2019 Metra began allowing monthly pass holders to use their ticket to travel anywhere in the system on weekends, where previously travel was restricted to the zones on the ticket.

Special event tickets and other data irregularities can affect month-to-month comparisons of passenger revenue and ticket sales figures:

• Stockpiling of 10-Ride Tickets occurred in advance of the 2017 and 2018 fare increases. As a result, 10-Ride Ticket passenger revenue and ticket sales were overstated in January 2018 and understated in subsequent months. As there was no fare increase in 2019, May 10-Ride Ticket sales were not reduced by stockpiling in January 2019 as they have been in previous years.
